

Popescu Maria

Summary

Finance graduate with a passion for data analysis and strategic financial decision making. Strong skills in financial analysis, financial modeling and risk management, acquired through academic projects and practical internships. Motivated to develop his career in a dynamic environment and contribute to the success of the organization through innovative and results-oriented approaches.

Education

Bachelor's Degree, Finances

University of Economic Studies

2020 - 2023

My academic experience prepared me to tackle the complex challenges of the modern financial market, benefiting from specialized courses and research projects that strengthened my foundations in economic analysis and risk management. I actively participated in extracurricular activities and team projects, cultivating communication and collaboration skills in a diverse and dynamic environment.

Experience

Financial analyst

FiNaNcE

2022 - Present

As a financial analyst, I was responsible for analyzing and interpreting financial data to provide strategic insights and recommendations. We performed detailed assessments of the organization's financial performance, including balance sheet, cash flow and revenue analysis, to identify trends and opportunities for improvement.
